ENVIRONMENTAL POLICY STATEMENT

Universal Instrument Services Ltd recognises that our activities and services may generate environmental impacts and we are committed to minimising our negative impacts.

It is the intention of Universal Instrument Services Ltd to:

- Comply with all relevant environmental regulatory requirements and strive to use pollution prevention and environmental best practices in all we do.
- Integrate the considerations of environmental concerns and impacts into all of our decision making and activities.
- Increase staff awareness and competence through the provision of adequate and suitable information, instruction, training and supervision.
- Incorporate environmental factors into the overall business strategy.
- Promote efficient use of materials and resources throughout our facility including water, electricity, raw materials and other resources, particularly those that are non-renewable.
- Avoid unnecessary use of hazardous materials and products. Seek substitutions when feasible and take reasonable steps to protect human health and the environment when such substances must be used, stored and disposed of.
- Prevent pollution, minimise waste, improve service reliability and promote energy efficiency, through the development and periodic evaluation of any environmental objectives and targets.
- Purchase and use environmentally responsible products accordingly.
- Where required or where significant health, safety or environmental hazards exist, develop and maintain appropriate emergency and spill response programmes.
- Strive to continually improve our environmental performance and minimise the social impact and damage of activities by periodically reviewing our environmental policy statement;
