

Universal Instrument Services Limited

Environmental Policy

Universal Instrument Services Limited is committed to prevent pollution, continually improve its environmental performance and effectively minimise the impact of its activities on the environment. We will encourage the adoption of similar principles by our customers, suppliers and other external stakeholders.

The key points of our strategy are:-

- Minimise waste by evaluating operations and ensuring they are as efficient as possible.
- Increase employee awareness and training of environmental issues and the impact/effects of their activities.
- Actively promote re-use and recycling both internally and amongst its customers and suppliers.
- The selection and use of its fleet and the source of its power requirement.
- Minimise noise disturbance to neighbours
- Minimise toxic emissions through
 - Use of biodegradable chemicals
 - Minimise use of chemicals to bare essentials
 - Minimise use of solvents and lead-based paints
 - Phasing out use of ozone-depleting substances
 - Efficient use of water and energy
- Comply with relevant environmental legislation as a minimum level of performance.
- Monitor progress and review environmental performance against this policy on a regular basis (usually yearly or in the first six months initially).
